## Safety & Facilities Solutions

### **Occupational Health and Safety:**

Implementing comprehensive workplace safety programs and risk management strategies.

**Industrial Hygiene:** Identifying, evaluating, and controlling potential workplace health hazards.

**Project Engineering:** Supports managing engineering, construction and facility projects for various government agencies and military facilities.

### **Maximo Enterprise Asset Management:**

Implementing and maintaining asset management systems to optimize operations and maintenance.

**Engineering Technician Support:** Providing technical assistance for engineering projects, including data collection and analysis.

**Safety Mission Assurance:** Ensuring adherence to safety protocols and standards throughout mission life-cycles.

**Environmental Science:** Conducting environmental assessments, impact studies, and developing sustainable practices.

**Energy Management** Analyze, Implement and execute environmentally friendly energy systems

**High Voltage Electrical:** Design, installation, and maintenance of high voltage electrical systems for critical infrastructure.

### **Facilities Maintenance and Plumbing:**

Comprehensive upkeep of buildings, including plumbing systems, to ensure optimal functionality

## Facilities & Safety Support Solutions Case Studies

Lead occupational health, safety and environmental inspections, air quality monitoring and mold inspections to meet and comply with federal and agency safety's rules and regulations.

### **Customer: Federal Law Enforcement Agencies**

provided support for NASA JPL's operations and maintenance contract. Our team, comprising EH&S, Energy, Quality Control, and Project Management personnel, oversaw approximately 3 million square feet, including more than 200 buildings on the facility's campus.

### **Customer: NASA Jet Propulsion Laboratories**

Provided Safety and Mission Assurance to NASA's Stratospheric Observatory for Infrared Astronomy (SOFIA), ensuring the safety of all mission personnel

### **Customer: NASA Ames Research Center**

Leading all electrical maintenance and repair activities, and managing and overseeing plumbing systems supporting NASA's Armstrong Flight Research Center Facilities Operations and Maintenance activities.

Providing Environmental Sciences to Armstrong Flight Research Center, ensuring that all natural resources are managed and maintained, while developing sustainable practices and hazard mitigation

### **Customer: NASA's Armstrong Flight Research Center**
